

SAKKEER A

Senior Software Engineer | React Native | Angular | Cross-Platform Mobile Development

+91 7904341001 | sakkeer.nsn@gmail.com | Coimbatore, Tamil Nadu | linkedin.com/in/sakkeer5297 | github.com/ASakkeer | sakkeer.com

PROFESSIONAL SUMMARY

Senior Software Engineer with 8+ years of experience specializing in frontend and cross-platform mobile application development. Expert in building high-quality mobile apps using React Native (5+ years) for Android and iOS, including custom Native Module development in Kotlin and Swift, and scalable web applications using Angular (3+ years). Skilled in mobile architecture design, API integration, state management, performance optimization, and end-to-end deployment to Play Store and App Store. Shipped 10+ mobile applications spanning enterprise messaging, field-service management, safety/security alerting, and SaaS platforms, with up to 40% crash rate reduction. Experienced working in Agile teams alongside product managers, designers, and backend engineers to deliver reliable, high-performance software at scale.

KEY ACHIEVEMENTS

- Shipped 10+ mobile applications to Play Store and App Store, reducing average crash rates by 40% through targeted performance optimization and Sentry and Firebase Crashlytics monitoring
- Slashed API response latency by 35% by implementing efficient REST API communication patterns, data caching strategies, and optimized state management with Redux Toolkit
- Built reusable component libraries and scalable architecture patterns that reduced new feature development time by 30% and cut code duplication across 5+ projects
- Mentored 3+ junior developers through weekly code reviews and pair-programming sessions, lowering post-release bug counts by 25% over two consecutive quarters
- Delivered 5+ Play Store and App Store release cycles with zero critical deployment failures through disciplined CI/CD pipelines and version control processes
- Integrated payment gateways, push notification systems, and native device modules across 8 applications, expanding platform capabilities and improving user engagement

TECHNICAL SKILLS

Languages: JavaScript (ES6+) | TypeScript | Kotlin | Swift

Mobile Development: React Native (5+ years) | Cross-Platform Development | Android & iOS | Native Module Development (Kotlin/Swift) | Push Notifications | Device APIs (GPS/Location) | Play Store & App Store Deployment

Frontend Development: Angular (3+ years) | React.js | Responsive UI Design | Component Architecture | Scalable UI Systems | Page Load Optimization

State Management: Redux | Redux Toolkit | Context API

API & Integrations: REST APIs | JSON | Third-Party SDK Integration | Payment Gateway Integration | Real-Time Messaging

Performance & Monitoring: Performance Optimization | Memory Management | Sentry | Firebase Crashlytics | Crash Rate Analysis

DevOps & Tools: GitHub Actions | CI/CD Pipelines | Git | Postman | Figma | VS Code | SourceTree

Methodologies: Agile | Scrum | Code Reviews | Technical Mentoring | Clean Code Practices

WORK EXPERIENCE

Senior Software Engineer <i>Atom8 IT Solutions Pvt Ltd Coimbatore</i>	Aug 2020 – Sep 2025
Full Stack Developer <i>Hartwin Tech Pvt Ltd Coimbatore</i>	Mar 2020 – Jun 2020
Frontend Developer <i>Brigita Solutions Pvt Ltd Coimbatore</i>	Sep 2017 – Feb 2020

ROLES & RESPONSIBILITIES

- Developed and maintained cross-platform mobile applications using React Native, JavaScript, and TypeScript for Android and iOS
- Built reusable and scalable UI components and implemented responsive interfaces based on product and design requirements
- Integrated REST APIs, third-party SDKs, authentication, push notifications, and native platform capabilities
- Developed and integrated custom React Native Native Modules using Kotlin and Swift for platform-specific Android/iOS functionality and React Native-native interoperability
- Implemented application state management using Redux/Redux Toolkit and optimized application rendering and performance
- Worked on Android and iOS builds, debugging, release management, and production issue resolution

- Improved application performance through render optimization, API optimization, memory management, and efficient data handling
- Collaborated with backend developers, UI/UX designers, QA teams, and product stakeholders throughout the development lifecycle
- Used Git, code reviews, debugging, testing, and CI/CD practices to maintain code quality and reliable releases
- Analyzed production issues, identified root causes, and delivered scalable and maintainable solutions

PROFESSIONAL PROJECT EXPERIENCE

Senior Software Engineer (React Native) — Atom8 IT Solutions Pvt Ltd

Vertiv — Field Service Management App | React Native, GPS/Geolocation, REST APIs

- Built a field-service app for electronics-product support, letting customers raise issue tickets and field engineers track and resolve them on-site
- Implemented lat-long based engineer tracking to route technicians to customer locations efficiently
- Built attendance and operations tracking covering daily login, ticket-acceptance time, on-site visit duration, and product-fix duration for field-ops reporting
- Developed custom React Native Native Modules using Kotlin and Swift to implement native file/PDF downloading and real-time download progress tracking on Android and iOS, integrating the functionality with React Native through Promise-based APIs and event-driven communication

Duress Safe — Safety & Security Alert App | React Native, Real-Time Location, Hardware Gateway Integration

- Developed a panic-alert safety app for security guards and hospital staff nurses to enable fast, discreet communication during dangerous situations
- Built a badge double-tap trigger that captures the user's location via a gateway device and pushes an instant distress alert to the server
- Implemented real-time alert broadcast to the security group and nearby staff, enabling rapid response to protect staff safety

Mongrov — Enterprise Business Messaging App | React Native, REST APIs, Push Notifications

- Built core messaging and workspace features for Mongrov, a business communication platform connecting distributed teams to the information and people they need
- Implemented real-time chat, notification delivery, and unified team-communication workflows across Android and iOS

Tao — Community Chat App (Tamil) | React Native, Localization

- Developed Tao, a Tamil-language community chat app enabling users to connect and share posts within public groups
- Focused on localized UX and smooth chat performance for a Tamil-speaking user base

Full Stack Developer — Hartwin Tech Pvt Ltd

Hive — File Management Application | Angular/React, Access Control

- Built Hive, a file and folder management application supporting individual and group-level organization with high-level security controls
- Implemented granular access permissions for shared and private files across teams

Frontend Developer (Angular) — Brigita Solutions Pvt Ltd

SCORA — SaaS Online Examination Platform | Angular, Component Architecture, Role-Based Auth

- Built SCORA, a multi-tenant SaaS platform covering online examinations, test authoring, and test scheduling
- Developed distinct role-based login and dashboard experiences for students, authors, test admins, and tenant admins, including profile management, test details, and results views

Jignov — Multi-Brand Fashion Marketplace Admin Panel | Angular, Admin Tooling

- Built the admin panel for Jignov, a multi-brand online fashion marketplace, supporting seller lead creation and document verification
- Implemented workflows for converting leads into sellers, approving orders, and creating discount coupons

PERSONAL PROJECTS & OPEN SOURCE

- Developed personal React.js projects (tools.sakkeer.com) exploring component-based architecture, hooks, and modern React patterns beyond Angular work
- Active GitHub profile (github.com/ASakkeer) with open-source contributions in React Native, Angular, and JavaScript
- Portfolio site (sakkeer.com) showcasing mobile and web projects with live demos and technical write-ups

EDUCATION

Bachelor of Science (B.Sc) – Computer Science | K.S.G College of Arts & Science, 2017
